EU approves Bill Gates' 'Digital ID' that Excludes Non Compliant Citizens from Participating in Society

In Preparation for the New System, Greece Last Week Became the first EU Member State to Start Rolling out Digital Identity Cards for Citizens. EU approves Bill Gates' 'Digital ID' that Excludes Non Compliant People from Participating in Society, reports [The People's Voice](#).

Globalist Billionaire Bill Gates is Demanding World Governments Follow the Example of the European Union and India and Adopt his "Global Digital ID." This System has Built In Features Designed to Exclude People from Participating in Society if They Do Not Conform to the Globalist Agenda.

The European Union's Parliament Officially Approved the "European Digital Identity Wallet" on Friday, laying the Foundation for A Chinese Social Credit like System that Punishes People Who don't Want to Comply with the "Global Digital ID" System by Locking them Out of the Society.

In Preparation for the New System, Greece Last Week Became the First EU Member State to Roll Out Digital Identity Cards to its Citizens.

The EU parliament officially approved the 'European Digital Identity Wallet' yesterday. Although they say it'll be voluntary – just like they said the digital vaccine passports would be voluntary – this system is the foundation for a Chinese social credit style digital. The Global Elite have Always Denied that They have Any Plans for Digital ID, Describing Anyone Who Dared to Expose their Plans as “Conspiracy Theorists” Who should Be Muzzled on Social Media and in Some Cases Thrown in Jail. But Now their Mask is Off and the Globalists are Making their Move. Everything indicates that A Ruthless, Violent and Administrative Suppression of Popular Unrest is Being Considered. Digital Identity Technology, to Be Called eID's, will give Europe's Political Elite the Power to Freeze People's Bank Accounts, Preventing them from Buying Plane Tickets, Groceries and Basic Necessities, and Participating in Society in A Meaningful Way. “The Digital Identity is not just A Passport that you have on your iPhone in the Form of A Digital Passport. It Covers Just about Everything the Government wants to Know about You,” said Eva Vlaadingerbroek.

“The Disadvantage is, and I hope People will Realize This, that the Government can Shut You Down. If You Want to Buy A Hamburger, Red Screen, Not for You. That Flight, Not for You.”

“They are Very Open and Honest about What their Goal is Here,” Vlaadingerbroek continues. “We should Take their Word Very Seriously and Say No, We should Eliminate these Communists Immediately, we should Say Get the Hell Out of my Private Life, I don't Want You Keeping Track of What I Eat and Where I Go.”

The Global Elite is Determined to Take Authoritarianism to A Whole New Level, Far Surpassing Anything Attempted in Mao Zedung's China or Joseph Stalin's Russia.

Ominously, in September the WEF Issued A Series of Articles Urging Deep Packet Inspection (DPI) Enforcement.

The WEF Promises that the New “Cashless Societies” and Digital ID's will Be Welcomed by the Public for their “Zero Knowledge Technology.”

They Really Think We're Stupid and that They can Get Away with their Crimes against Humanity.
